Dear Recruiter,

I hope you will consider me for the position of "Software Developer", as advertised on JobMine.

I embody many of the characteristics that you look for in the ideal candidate. Technically, my programming skills are well-rounded with several years of experience developing web apps in HTML5/CSS3/JavaScript to creating Java applications in Swing. I am a young, aspiring, and self motivated programmer who excels in team environments so I hope to contribute my skills and expertise to guarantee that the IT infrastructure of your company is as solid as possible!

All my side projects can be found in my GitHub repository under <https://github.com/jasonf7> for reference. Attached to the cover letter you will find my resume which showcases my qualifications.

Thank you for taking the time to consider me for the position. I look forward to hearing back from you.

Sincerely,

Jason Fang
