Dear Recruiter,

I hope you will consider me for the position of "Cloud-Based Platform Development", as advertised on JobMine.

I embody many of the characteristics that you look for in the ideal candidate. I have two years of experience developing object-orientated Java GUI applications and am familiar with OOP using C/C++ as well. In addition, I've worked as a team lead in a Robotics Design Project coded using various Python Scripts for the robot's AI. Finally, I often work develop in Linux and therefore am comfortable with terminal and the UNIX environment.

All my side projects can be found in my GitHub repository under <https://github.com/jasonf7> for reference. Attached to the cover letter you will find my resume which showcases my skills and talents of which I will bring to make your company strong and powerful!

Thank you for taking the time to consider me for the position. I look forward to hearing back from you.

Sincerely,

Jason Fang
